

Environment Club

The St. Joseph Environmental Club is a group of 36 students from grades 3 to 7 who meet once a week throughout the school year. The students in the club work hard to ensure that the school's status as an Ontario EcoSchool continues to improve each year. Members of the club conduct energy audits, waste audits, carry on a composting program and a recycling program as well as help organize a battery recycling program, water bottle sales program, and help care for our "Sarah Tree". Students are especially active during the month of April when they organize and perform in Earth Day plays for the Primary classrooms, run an environmental quiz, blue/green contest, litter less lunch program and a whole school Liturgy on Earth Day. The Environment Club is a member of EcoKids Canada and participates in initiatives from Earth Day Canada, Pitch in Canada, Earth Rangers and the Frontenac Arch Biosphere Environmental Education Network.

Adult supervisors are Mrs. Dabros and Mr. van der Hoeven
